

Information for Financial and Legal Advisors

Ecojustice is Canada's largest environmental law charity, with over 30 years of experience defending nature, combating climate change, and fighting for a healthy environment for all. Our strategic public interest lawsuits lead to precedents that deliver lasting solutions to our most urgent environmental problems.

Many Canadians are concerned about our climate and biodiversity crisis, and seek to protect the environment long into the future. By partnering with Ecojustice, your client ensures we will remain financially independent, and Canadians and the nature they cherish will be safe guarded for future generations.

Thank you for assisting your client with their philanthropic wishes. We have prepared information to help you explain the many planned giving options available. Please contact us for more details on gifts of life insurance, securities, real property, charitable trusts, and other residual interest gifts.

Please include our full name and charity number in a will. Without this, we may not receive the gift.
